# SCHOOL REPORT.

---

## PENACOOK SCHOOL DISTRICT.

We herewith submit the report for the school year ending June 1904.

The work for the past year has been done under the most favorable circumstances.

For principal we had a college graduate of experience and great executive ability, and with assistant teachers in the lower grades who have done excellent work for us in the past, made the year a most successful one.

New text books and material for supplementary reading has been placed in the schools in order to do more progressive work, and meet the demands of the Concord school.

It seems to be the opinion of the committee, that in the near future it will be necessary to divide the primary school, or have an assistant teacher. The crowded condition and continually increasing enrollment makes this step necessary. Already we have been obliged to change this school to the larger room, with additional desks to provide them with seating capacity.

During the fall term the teachers and scholars of the first and second grammar schools gave an entertainment, for the purpose of buying pictures for their school rooms, and realized twenty eight dollars therefrom.

The parents and friends who were privileged to attend the graduating exercises at the close of the year must have felt a just pride in our school, as only words of praise were spoken of the high order of the work.

A class of five were given diplomas, Miss Cora Grace Coffin, Miss Florence Alma Foster, Miss Blanche S. Griffin, Miss Cleo

Serepta Cowen, and Miss Anna Harriet Pepler. Four entering Concord schools and one entering Kimball Union Academy at Meriden, N. H.

Again the committee ask the parents and friends to co-operate with them, by visiting the school, and showing to the teachers and children, that they are interested in their work, and encourage them by so doing, that we may make our school more effective.

PENACOOK, N. H., February 25, 1905.

## BOSCAWEN TOWN SCHOOL DISTRICT.

During the past year five schools have been maintained aggregating 145 weeks in length. This is fully up to the average in rural districts.

We realize however that time alone is not the only requisite to secure an education for our boys and girls. The success of a school depends in a large measure upon the character and efficiency of the teachers and great care has been exercised to select those, who by training and experience were best endowed with these qualities.

With one exception we have been fortunate in securing teachers of much experience. All the teachers have worked hard, and good results have been obtained.

A few changes in text books have been made. The Tarr MacMurray geography has been introduced, and we hear many words in praise of its merits from teachers and parents. A Beginner's History by the same author as the larger one already in use, has been adopted for the younger pupils, and for the older ones we have A Topical Survey of United States History, this being a concise review of the principal facts of our history arranged especially for the use of pupils who have completed the grammar school history. For the advanced class we have also introduced such other books as are prescribed for the ninth grade work in the Penacook schools, and we see no reason why our pupils should not be able to fit themselves here in town to enter a high school, as well as to go to the expense of attending outside schools.

This matter has been spoken of repeatedly by parents, and we hope the new order will be given a fair trial. Of course the older pupils will be obliged to attend a full year, in order to complete a year's course. Do not blame the school if the neglect to use the privileges given, cause failure at the end of the year. While

we feel that visible progress has been made, yet we all know that in order to advance, or even to maintain the standard already reached we must secure the co operation of parents and interested friends.

By uniting the schools, we have formed a graded school at the Plain where we have three grades in which we follow the course of study as given in the schedule of work in the Penacook Schools (Concord side.)

We hope that the parents will vote to continue this school, and thus give the children a system, in which they may go on to a completion of grammar school work.

All pupils in any grade should take all work belonging to that grade, and not skip or choose at pleasure only those studies that appeal to them as best for the moment.

Something is needed to awaken School Loyalty. We feel much pleased that so many parents have cared enough for the best interest of their children to put themselves to some real effort that we might have this graded school.

This is very encouraging, and we see no reason why we may not continue to progress until we have a school system the equal of any in a town of our population.

We need however the feeling in each and every pupil, that he alone is responsible for the success of the school. A little fair rivalry is not harmful; and as soon as each pupil can be filled with the desire to make his class the very best in the school in attendance, recitation, deportment and enthusiasm, in a word with class loyalty, we shall have done much for our school as a whole and for our pupils as individuals.

In regards to repairs, little has been needed this present year. A few changes seem desirable. The school room down stairs at the Plain needs better light, that the pupils be not forced to strain their eyes, and suffer from headaches and other ailments as the effects of so doing.

We need also, a set of maps such as are used in graded schools, and such sets, enclosed in wall brackets which prevent the maps from being torn, or becoming soiled by the chalk and dust of the schoolroom, can be obtained at reasonable prices, and the benefit will more than repay the cost.
